IEA members: €549 / Non IEA members: €849

- Are you currently **exporting** or **importing** to the UK?
- Does your product currently **transit** the UK and are you concerned about delays?
- Have you been tasked to **plan for Brexit** and your Supply Chain?

The IEA, together with Revenue, have developed a practical training programme to help exporters **prepare** for Brexit. This programme will give each participant clear guidance on customs procedures and documentation in a post-Brexit scenario. Two senior representatives from Customs and Revenue will be present on the day to answer any customs queries and concerns.

Each delegate will come away with an understanding on what their business needs are in order to scenario plan for a Brexit situation in terms of customs and a stream lined supply chain between Ireland and the UK.

What is covered?

- Export Declarations
- Tariff Classifications
- Understanding UK Customs
- Benefits of AEO for Brexit
- Customs Documentations
- Q&A with Revenue

Who should attend?

- Logistics, Shipping and Supply Chain Managers
- Finance and Procurement Managers
- Compliance Managers
- Customs Managers
- Export Sales Managers
- Business Development Managers
